

About the Course

The Lakemont Course at Stone Mountain Golf Club offers a target-oriented layout and exquisite views of Stone Mountain and the surrounding lake. Georgia native John LaFoy designed the Lakemont Course.

The front 9 holes wind around Stone Mountain Lake; six holes have water in play. The back 9 have beautiful holes with rock outcroppings, including 4 holes where water comes into play. LaFoy's penchant for mounding and dramatic bunkering is evident throughout the course. The striking elevation changes offer a unique ambience that appeals to every golfer.

MATHCOUNTS Golf Tournament is hosted by

MATHCOUNTS provides fun and challenging math programs for US middle school students to increase their academic and professional opportunities.

With generous support from MATHCOUNTS sponsors and volunteers and leadership of the National Society of Professional Engineers at the local and state levels, MATHCOUNTS is providing today's students with the foundation for success in science, technology, engineering, and mathematics careers.

MATHCOUNTS is one of the country's largest and most successful education partnerships involving volunteers, educators, industry sponsors, and students. Since its founding 40 years ago, MATHCOUNTS has been recognized in numerous White House ceremonies and has also received two White House citations as an outstanding private sector initiative.

Georgia has improved dramatically in recent years at the national competition, including two top-10 team finishes and a 3rd place individual finish. Our Georgia "mathletes" have shown just how effective MATHCOUNTS can be in boosting student mathematical achievement.

The Georgia Society of Professional Engineers (GSPE) has established the Georgia MATHCOUNTS Foundation (GMF), a 501(c)3 tax-exempt organization, to support the chapter and state competitions. Thank you for your generous donation.
