

SUPPORT THE NEXT GENERATION OF PROFESSIONAL ENGINEERS

GSPE FE Exam Grant Program
Invest in the future engineering workforce in Georgia

The Georgia Society of Professional Engineers (GSPE) is launching the FE Exam Grant Program to support engineering students pursuing professional licensure.

We are seeking industry partners to help expand this initiative and strengthen the pipeline of future licensed engineers.

WHY THIS MATTERS

- Licensure supports public safety and engineering standards
- Many students delay the FE due to cost or awareness
- Early action increases long-term licensure rates
- Stronger pipeline = stronger workforce

Limited initial funding cycle — early sponsors help launch the program

Become a Sponsor

Fund the next generation of licensed engineers

Program Overview

- 10 grants annually
- \$125 per student
- Supports FE exam costs
- Students near graduation

Sponsorship Levels

- \$250 → Funds 2 students
- \$500 → Funds 4 students
- \$1000 → Funds 8 students
